

Directions:

- Please fill-out this checklist and share with your Faculty Adviser prior to registering for classes and at the beginning of each semester, if there are changes. This will keep you on track with appropriate coursework and requirements to graduate.
- Use the “Notes” section for special circumstances such as Transfer Credit.
- Please keep a record of your Faculty Adviser’s approval of your schedule either via email or by signing this form.

Anticipated Graduation	

	Category	Course Name & Number	Pt	Grade	Term Date	Notes
<input type="checkbox"/>	Required	GR5203 Probability	3			
<input type="checkbox"/>	Required	GR5204 Inference	3			
<input type="checkbox"/>	Required	GR5205 Linear Regression Models	3			
<input type="checkbox"/>	Elective 1*		3			
<input type="checkbox"/>	Elective 2		3			
<input type="checkbox"/>	Elective 3		3			
<input type="checkbox"/>	Elective 4		3			
<input type="checkbox"/>	Elective 5		3			
<input type="checkbox"/>	Elective 6		3			
<input type="checkbox"/>	Required	GR5291 Advanced Data Analysis OR GR5242 Advanced Machine Learning**	3			

* A minimum of 3 electives must be from the Statistics Department. All electives must be taken for a grade to count towards graduation.

** There are now two Capstone Course options for graduation from the MA Statistics Program. You may choose EITHER Advanced Data Analysis or Advanced Machine Learning. You may also take both, but only one will count for your official required Capstone Course and the other will count as an approved [Statistics Elective](#). Please see details below:

- **GR5291 [Advanced Data Analysis](#)** (3 points) – To be taken in the second or last semester.
- **GR5242 [Advanced Machine Learning](#)** (3 points) – GR5241 [Machine Learning](#) is the prerequisite for this course. Students lacking the required prerequisite will not be allowed to take the course.

Total RU/Residence Units (Required = 2 RU)	Total Credits (Required = 30 Credits)
