

Directions:

- Please fill-out this checklist and share with your Faculty Adviser during the first weeks of classes.
- This will keep you on track with appropriate coursework and requirements to graduate.
- Use the “Notes” section for special circumstances such as Transfer Credit.

Student Name & UNI

Start Semester	
Anticipated Graduation	

Category	Course Name & Number	Pt	Grade	Term Date	Notes
<input type="checkbox"/> Required	GR5203 Probability	3			
<input type="checkbox"/> Required	GR5204 Inference	3			
<input type="checkbox"/> Required	GR5205 Linear Regression Models	3			
<input type="checkbox"/> Elective 1*					
<input type="checkbox"/> Elective 2					
<input type="checkbox"/> Elective 3					
<input type="checkbox"/> Elective 4					
<input type="checkbox"/> Elective 5					
<input type="checkbox"/> Elective 6					
<input type="checkbox"/> Required Capstone**	GR5291 Advanced Data Analysis <i>OR</i> GR5242 Advanced Machine Learning	3 3			

* A minimum of 3 electives must be from the Statistics Department. All electives must be taken for a grade to count towards graduation.

** For your Capstone Course, choose EITHER Advanced Data Analysis or Advanced Machine Learning.

If you take both, one will count for your Capstone Course and the other will count as an approved [Statistics Elective](#).

- **GR5291** [Advanced Data Analysis](#) (3 points) – To be taken in the second or last semester.
- **GR5242** [Advanced Machine Learning](#) (3 points) – GR5241 [Machine Learning](#) is the required prerequisite for this course.

Total RU/Residence Units (Required = 2 RU)	Total Credits (Minimum required = 30 Credits)
